DETAILED ACTION

Preliminary Remarks

1. This Office action responds to the amendment and arguments filed by applicant on April 6, 2005 in reply to the previous Office action, mailed January 7, 2005.
2. The amendment of claims 1, 15, and 17-20 in the reply filed by applicant on April 6, 2005 is hereby acknowledged.

Election/Restriction

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-3, 20, and 21, drawn to a method of generating a computer database or data structure, classified in class 707, subclass 102.
 - II. Claims 15 and 17-19, drawn to a computer database system comprising database query formulation, input preparation, or translation, classified in class 707, subclass 4.
4. The inventions are distinct, each from the other because of the following reasons:

Invention I is related to Invention II as process and apparatus for its practice. The inventions are distinct if it can be shown that *either*: (1) the process as claimed can be practiced

by another, materially different apparatus, or by hand, *or* (2) the apparatus as claimed can be used to practice another, materially different process. (MPEP § 806.05(e)). In this case, the process as claimed can be practiced by another, materially different apparatus, or by hand, such as by performing the method manually using a computer terminal and e-mail.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. A telephone call was placed to Shelley M. Beckstrand (Reg. No. 24,886), attorney for applicant, on June 21, 2005, to discuss an oral election to the above restriction requirement, but the call did not result in an election being made.

7. Applicant is advised that the reply to this requirement, to be complete, *must* include an election of the invention to be examined, even if the requirement be traversed (37 CFR 1.143).
